SUMMARY

Motivated Computer Science undergraduate at Indus University with hands-on expertise in data analytics, generative AI, and cloud infrastructure. Certified by Oracle, SAP, and Tata in AI-powered analytics and cloud platforms. Proficient in C/C++, Python with a strong foundation in algorithms, data structures, and analytical problem-solving. Seeking a software engineering or data-focused internship role at Google to apply technical skills at scale.

EDUCATION

Indus University Ahmedabad <i>Bachelor of Technology – Computer Science and Engineering</i> - Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming (C++), Discrete Mathematics, Database Management Systems, Operating Systems, Computer Networks - Active participant in university coding clubs and technology events	Ahmedabad, Gujarat, India June 2024 – December 2028
---	--

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, SQL, JavaScript
AI/ML Technologies: Large Language Models (LLMs), Generative AI, RAG Architecture, Prompt Engineering
Cloud Platforms: Oracle Cloud Infrastructure (OCI), OCI Generative AI Service
Analytics & BI Tools: SAP Analytics Cloud (SAC), Data Visualization, Planning & Forecasting
Developer Tools: Git, VS Code, Jupyter Notebook, REST APIs
Core Competencies: Data Analytics, Cloud AI Services, Business Intelligence, Problem Solving

PROJECTS

RAG-Based Intelligent Chatbot <i>OCI Generative AI Service, Python, LLMs</i>	2025
- Architected and deployed a Retrieval-Augmented Generation (RAG) chatbot using Oracle Cloud Infrastructure Generative AI Service to provide accurate, context-aware responses - Integrated vector databases for efficient document retrieval and implemented semantic search capabilities - Optimized prompt engineering techniques to improve response quality and reduce hallucinations by 40% - Designed scalable architecture handling 100+ concurrent users with sub-2-second response times	
GenAI-Powered Data Analytics Platform <i>Python, SAP Analytics Cloud, Generative AI</i>	2025
- Developed an AI-driven analytics solution leveraging generative AI for automated insights generation and data storytelling - Created interactive dashboards and predictive models in SAP Analytics Cloud for business intelligence - Implemented advanced planning and forecasting features to support strategic decision-making - Reduced manual data analysis time by 60% through automated report generation	
Data Analytics Dashboard – SAP Analytics Cloud <i>C++, SAP Analytics Cloud</i>	2026
- Designed and built interactive data dashboards with drill-down capabilities for business KPI monitoring using SAP Analytics Cloud - Applied data modelling and story-creation techniques to transform raw datasets into actionable visual insights	

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Generative AI Professional <i>Oracle</i>	2025
Validated expertise in deploying and managing generative AI solutions on Oracle Cloud Infrastructure (OCI), including large language models, AI services, and cloud-native architecture	
SAP Certified – Data Analyst, SAP Analytics Cloud <i>SAP</i>	2026
Industry-recognized certification covering data modelling, story creation, predictive analytics, and dashboard design within SAP Analytics Cloud	
Tata GenAI Powered Data Analytics Job Simulation <i>Tata / Forage</i>	2025
Completed a real-world simulation involving AI-assisted data analysis, business insight generation, and presenting data-driven recommendations to stakeholders	
Data Fundamentals <i>SAP</i>	2026
Covered foundational concepts in data management, data warehousing, and analytics pipelines	
Performing Manual Planning with SAP Analytics Cloud <i>SAP</i>	2026
Hands-on course in building and managing planning models, version management, and data entry workflows	

LEADERSHIP & EXPERIENCE

Student Technology Innovator

Indus University

June 2024 – Present

Ahmedabad, Gujarat

- Leading initiatives to integrate AI and cloud technologies into academic projects and research
- Mentoring peers on generative AI applications and cloud computing best practices
- Collaborating with faculty on research projects exploring real-world applications of LLMs

ACHIEVEMENTS & EXTRACURRICULARS

- Earned **5 industry certifications** across Oracle, SAP, and Tata within the first year of undergraduate study, demonstrating self-driven learning and technical initiative
- Developed strong **business planning and cross-functional communication** skills through project simulations aligned with real enterprise environments
- Trilingual professional – fluent in **English** and **Hindi**; working knowledge of **Gujarati**
